STRONGEST**

1ft Extension Poles

Patent Pending adjustable extension poles allow you to increase the height of your grow tent from 7' to 8' to 9' or even 10' tall.

1680D Thick Material

With a huge thread density of 1680D (compared to 200D - 600D) The Gorilla Grow Tent Kit is up to 3 - 9 x denser than ANY grow tent ever made.

Infrared Block Roof

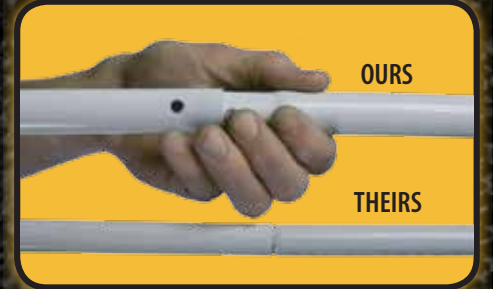

Patent Pending infrared blocking roof keeps surface temperatures cool and safe.

All Steel Poles

Gorilla Grow Tent features all steel poles with steel interlocking pins for a frame that is up to 2 - 5 x stronger than any competitor's grow tent frame. There are no plastic pieces to our frame and our poles are thicker than any other grow tents available. The Gorilla Grow Tent Kit frame is so strong it can hold up to 135kg.

Steel Locking Pins

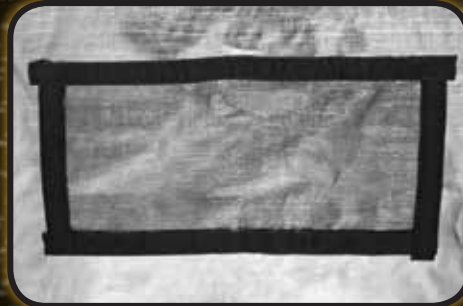

Dual Cinching Ducts

All our duct ports cinch closed on the inside and outside of the tent and stay closed perfect for closed loop systems.

Micro Mesh Air Vents

First ever micro mesh adjustable air vent keeps bugs out and allows you to adjust your tent's air flow!

Easy View Windows

Maintain your Gorilla Grow Tent environment and check in on your plants with these easy view windows.

Diamond Reflective Walls

New diamond pattern reflective walls efficiently make use of every foot candle of light by directing light back to your grow.

Spill Tray

Thick and strong spill tray that can hold gallons of water protects you from any mishaps that may occur during your grow.

Tool Pouch

Everything in its place and a place for everything is easily achieved with this convenient tool pouch.
